VOLCANO BOA

Description: Safety boot for firefighters. The (whole) boot is washable.
Standards: F2A+SRC +HI₃+CI+AN- EN 15090: 2012
Upper: Fire and water resistant PBI® fabric and microfiber.
Inner lining: Crosstech® by Gore Tex® Membrane. Waterproof and breathable. Blood, body fluids and common chemicals resistant.
Inner sole: 2 layers (PES y open-cell foam). Anatomically preformed, antibacterial (activated carbon). High energy absorption and recovery.
Insole: HTP (High Tenacity Polyester) penetration resistant insole. Similar to Kevlar®.
Sole: antistatic, fireproof and heat resistant, with anti-slippery design. Fuel oil and slip resistant. Two coloured in order to increase daily visibility.
Toe cap: COMPOSITE VINCAP® covered by external rubber protection.
Threads: Double seam made of Kevlar that is water and fire resistant.
Reflective parts: Fire resistant 3M® reflector, high visibility.
Closing system: BOA® system. Water, ice and mud resistant knob. Flame resistant according EN 15090: 2012. High tear strength lace/cable (>700 N) - Replaceable.

Sizes : 35 a 50 (EU)

Height: - 293 mm (±5% ext. size 42)

Weight : 990g/boot (±10% size 42)
